

Goaline project

World cup summer
series 2026

Stuff you need to know

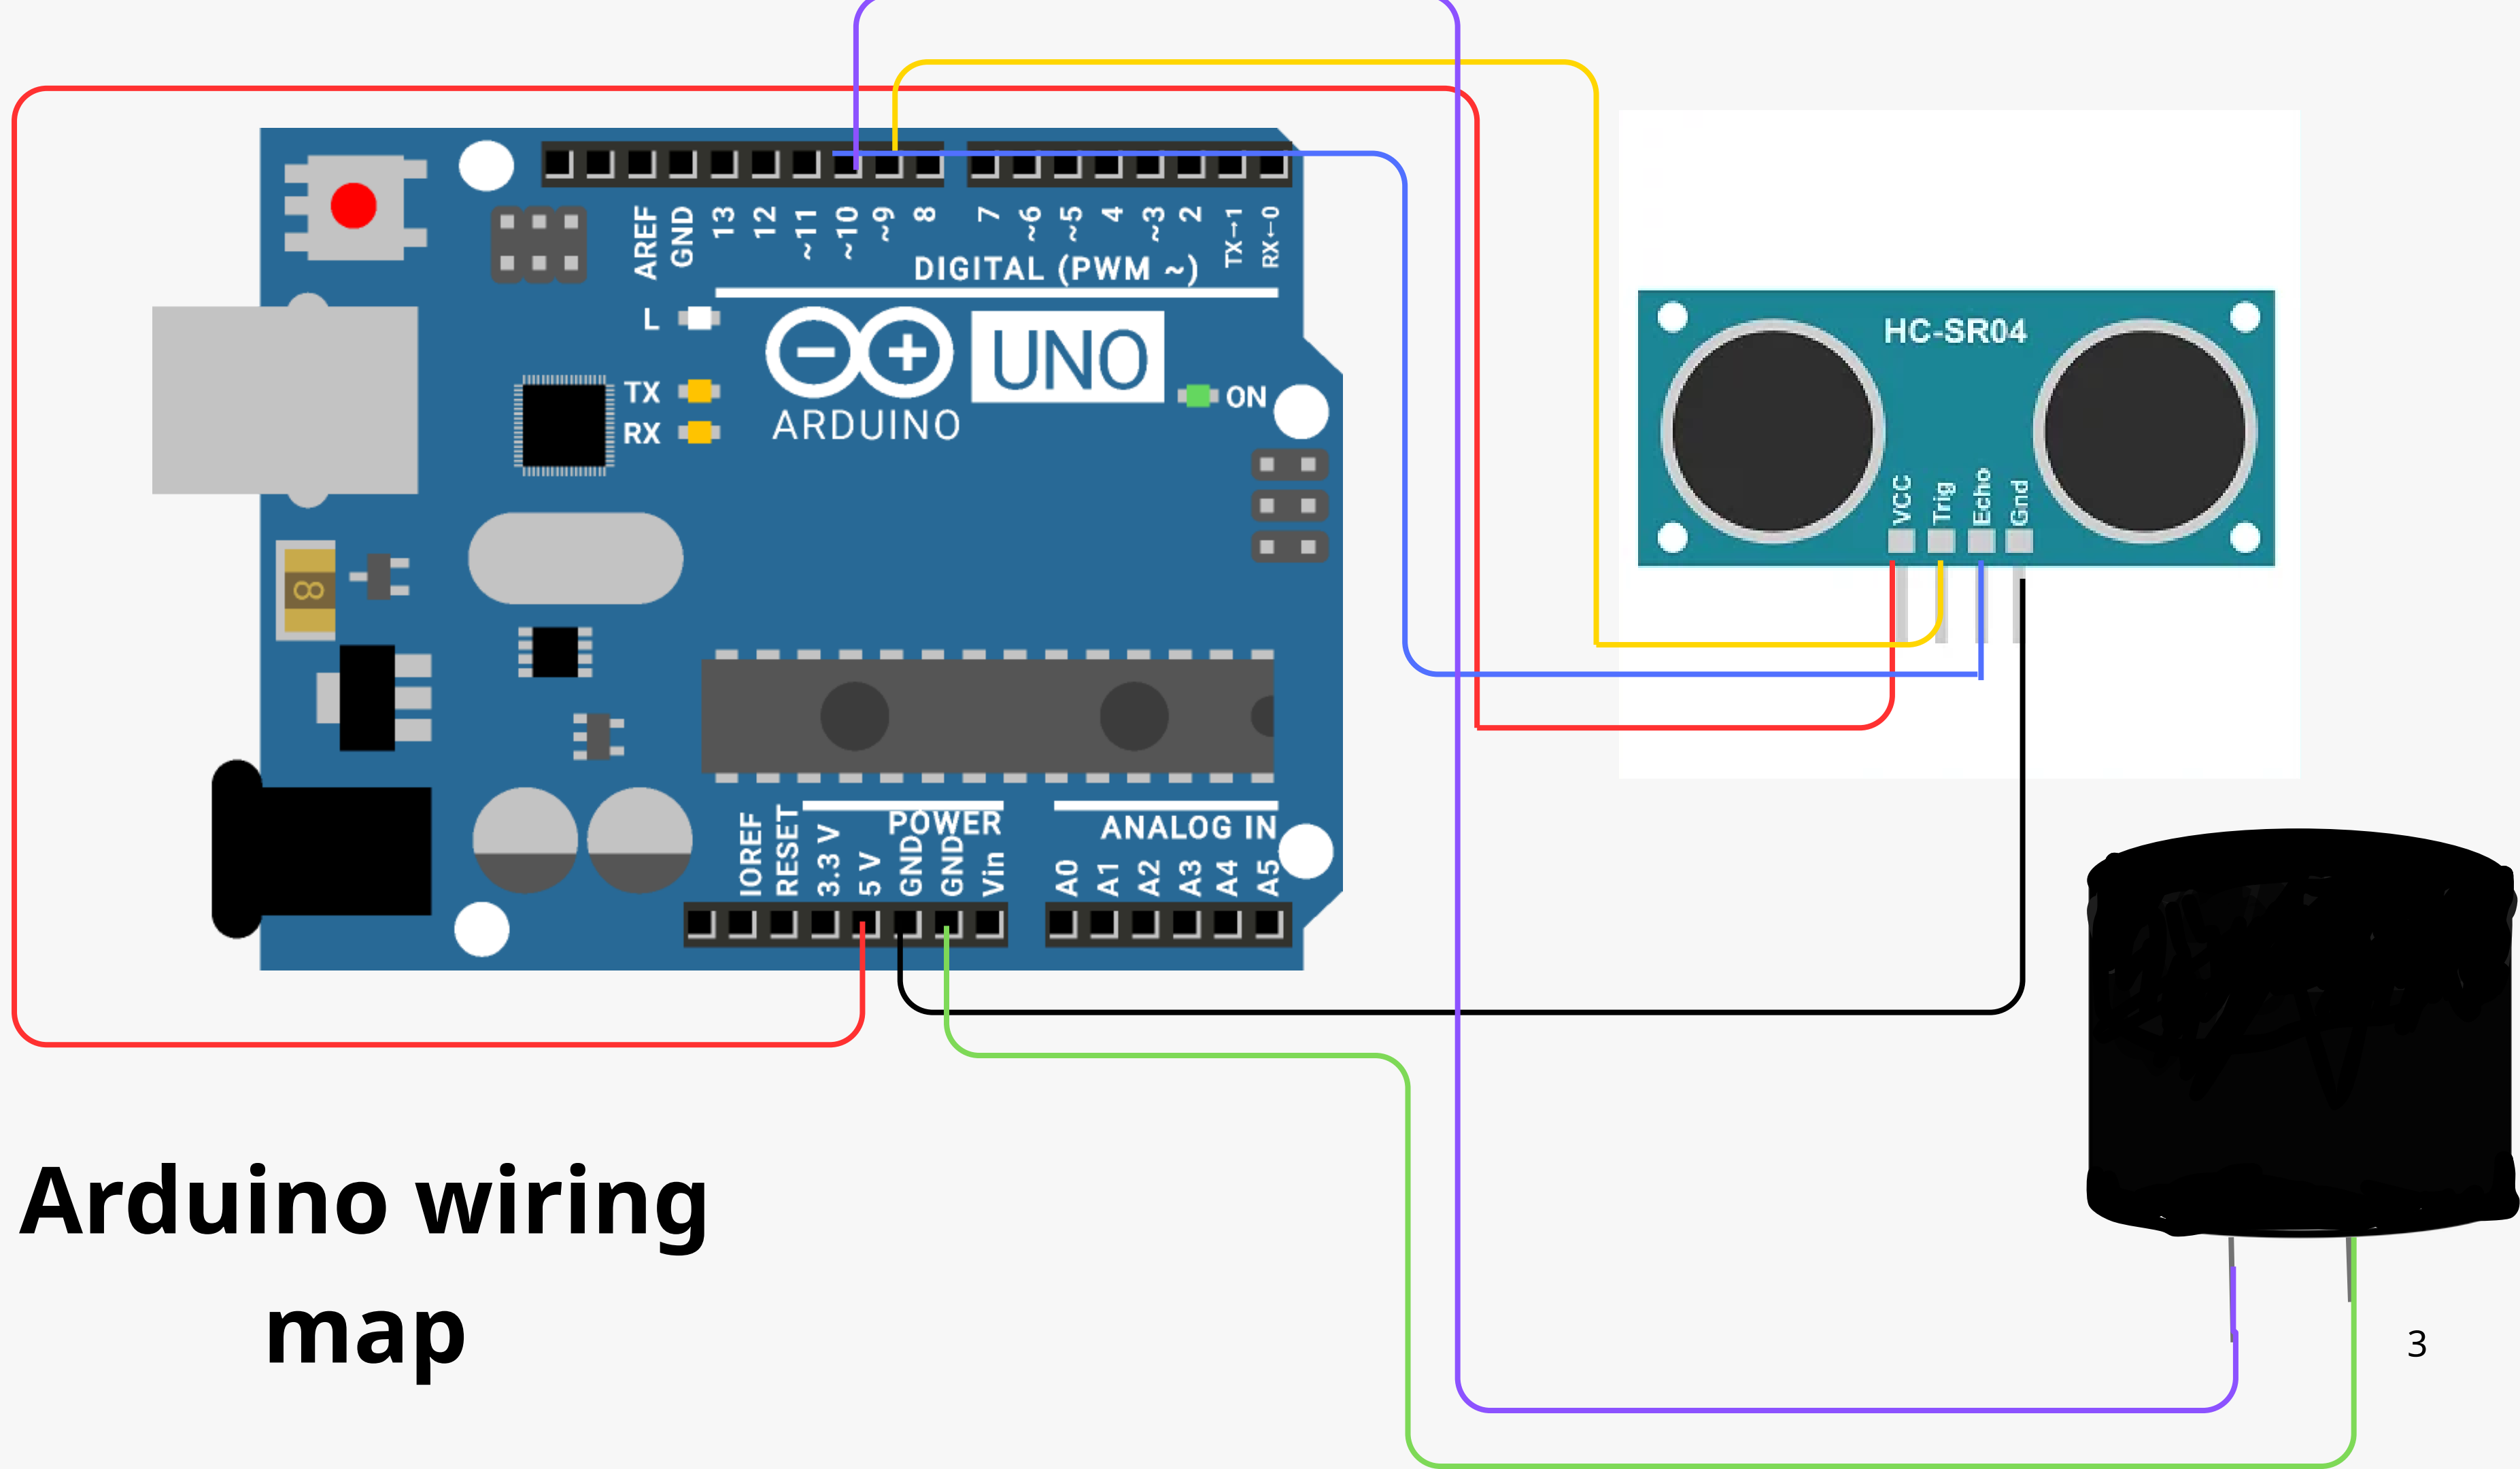

Male-to-Male

Male-to-Female

Female-to-Female

1. All of these wires are called jumper wires.
2. There are 3 different types of jumper wires.
3. The colors of the wires does not matter.
4. The electricity in the 5V power is not enough to shock you, but never connect it directly to the household electrical hole.

Arduino wiring
map

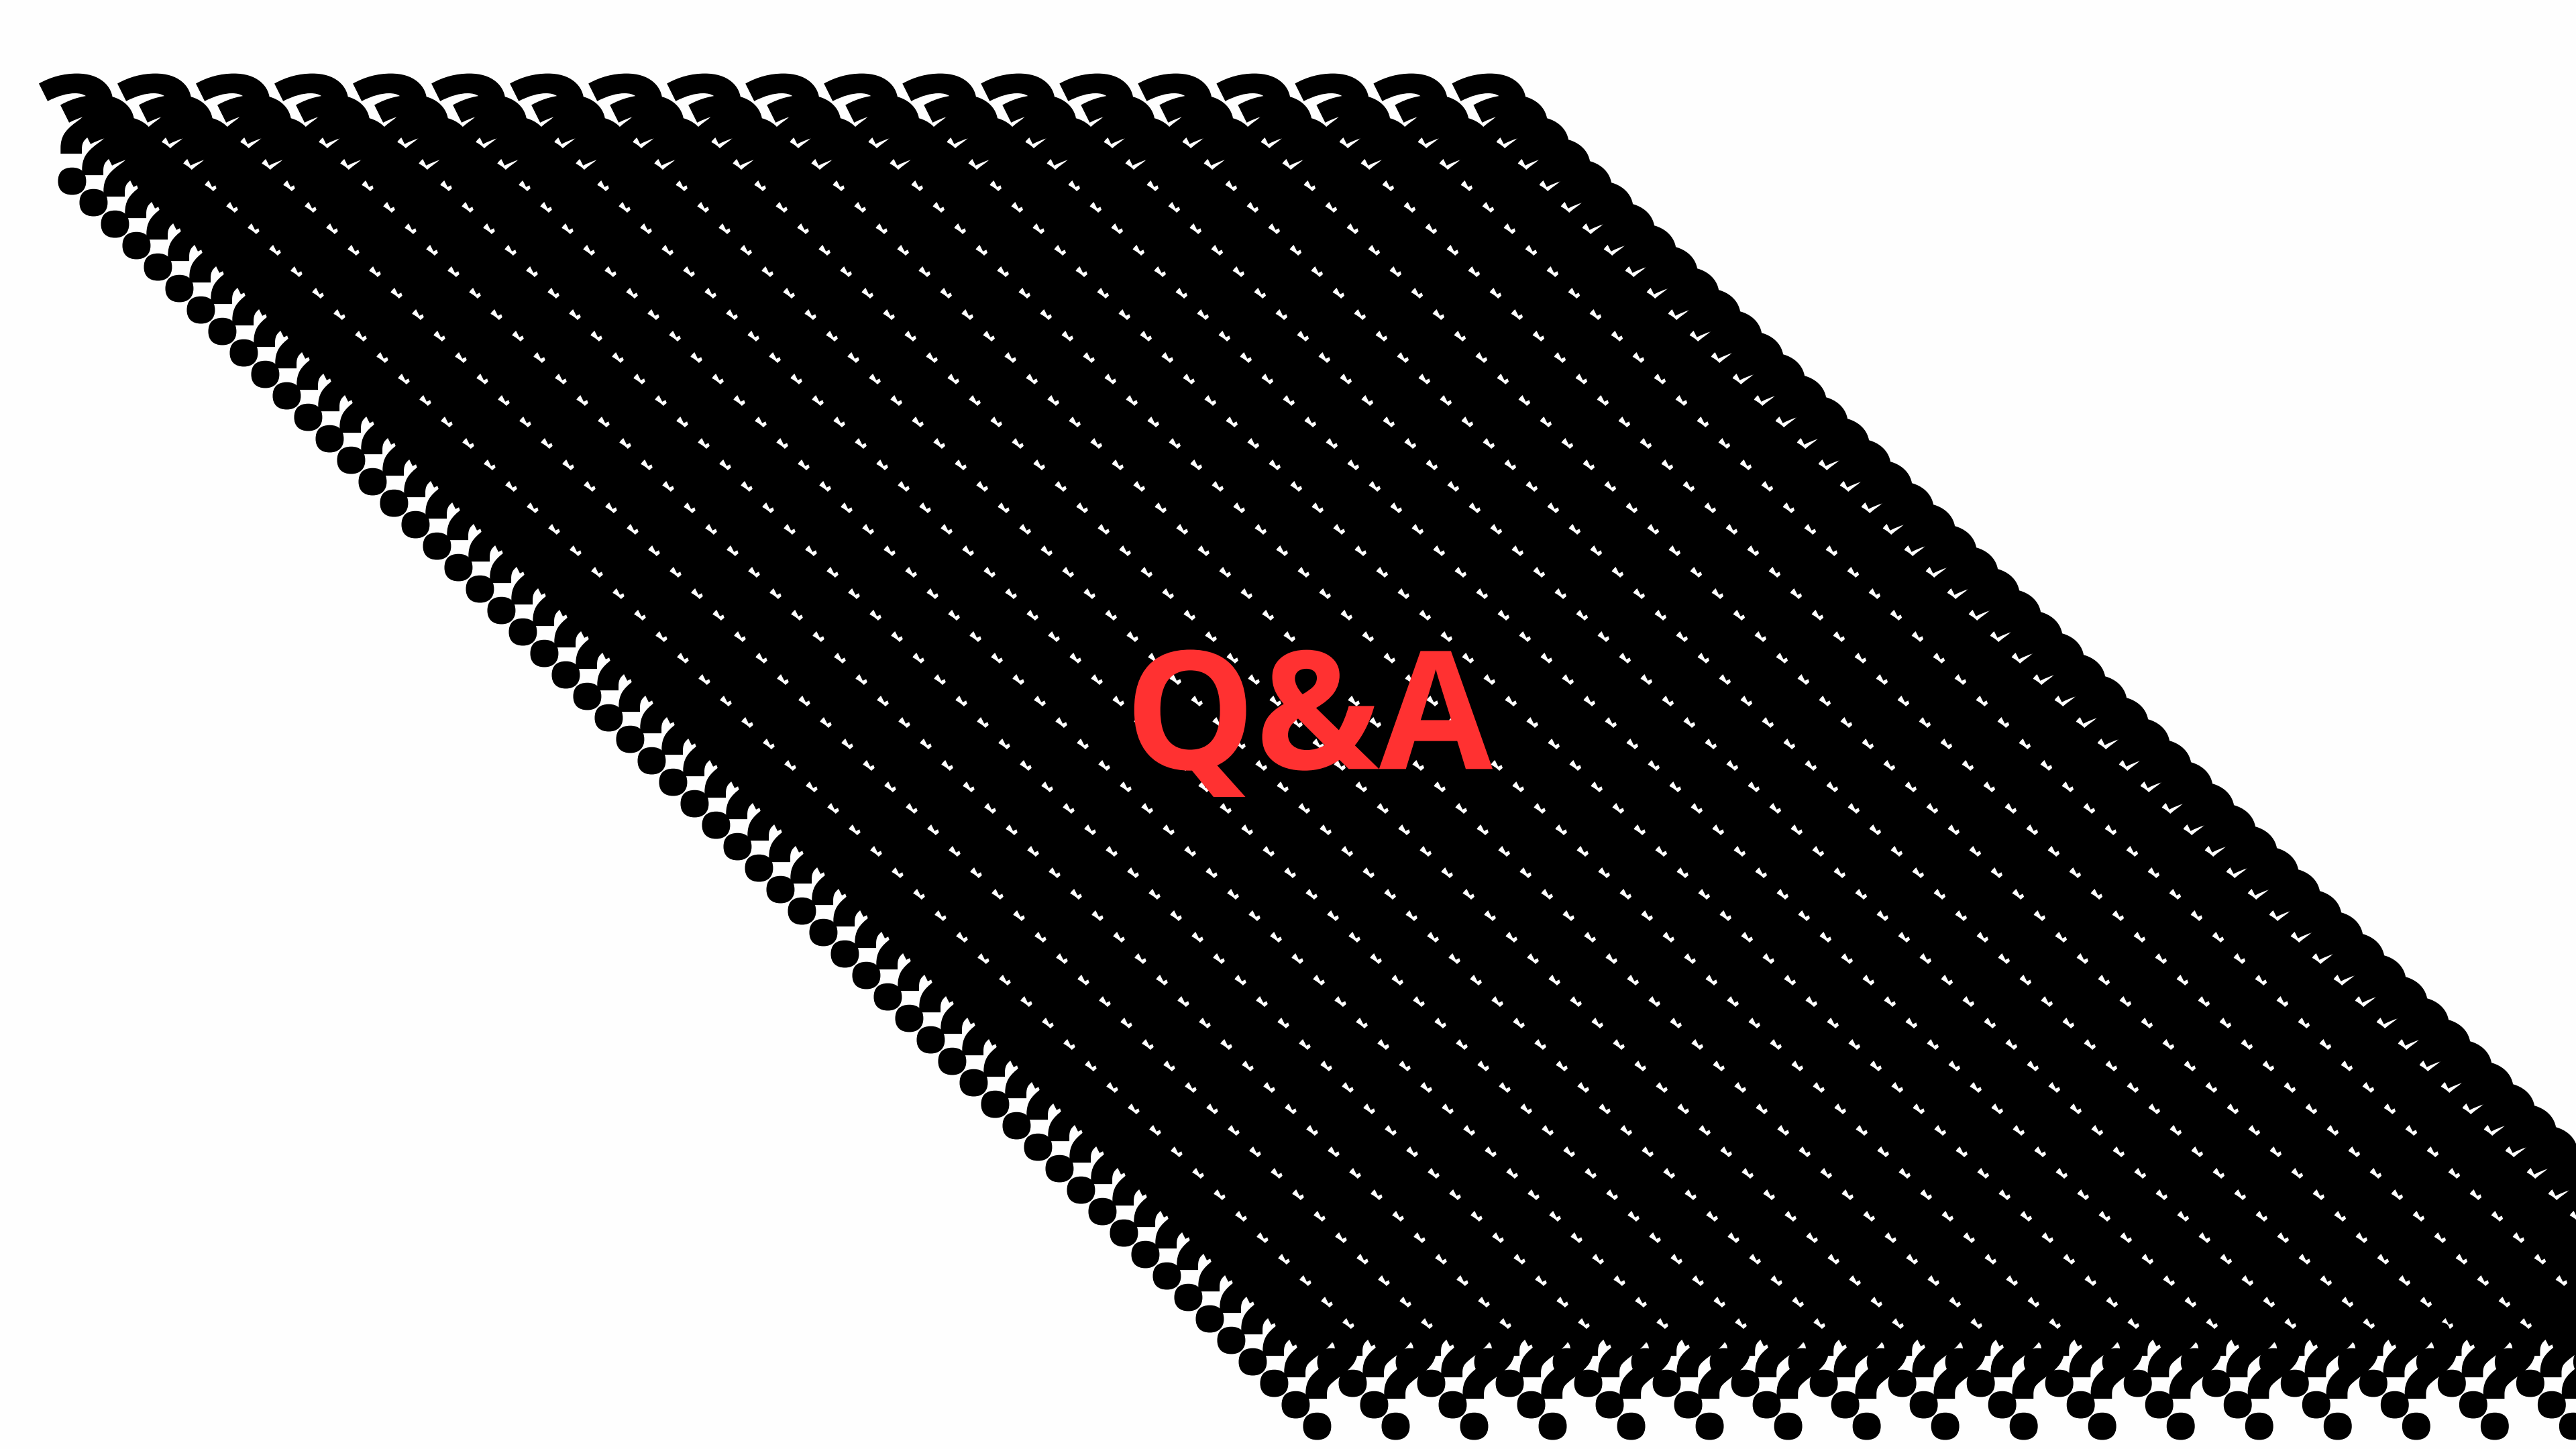

Physical problems

sensor:

- 1. The sensor can't signal the ball fast enough to tell the Arduino.**
- 2. The sensor can't scan too high or too wide.**

ball:

- 1. The ball is very slippery and can be kicked very fast.**
- 2. The ball has no chips inside.**
- 3. The ball is too small.**

A large, stylized graphic of a woven basket or basketry pattern, tilted diagonally, with the text "Q&A" in red in the center. The pattern is composed of many small, repeating geometric shapes that create a dense, textured effect. The overall shape is a large, irregular parallelogram that tapers towards the top-left and bottom-right corners. The text "Q&A" is centered within the pattern, rendered in a bold, red, sans-serif font.

Q&A
